PRESS RELEASE 29.11.2022

Market Information Day E39 Stord – Os (Hordfast) 12th January 2023

The Norwegian Public Roads Administration invites contractors, suppliers, the shipbuilding industry, and advisers to a Market Information Day in Bergen.

“Planning and preparation of Norway’s most extensive project E39 Stord-Os (Hordfast) is in full swing. In this process we want to have a close dialogue with the industry about the contract and procurement strategy to ensure predictability and early involvement, says project manager Arve Tjønn Rinde.

Hordfast is considered complementary to the ongoing Rogfast-project. Hordfast remove one long ferry distance between the two biggest west coast cities of Norway, Stavanger and Bergen. A highway standard for the route E39 Stord-Os is under planning at a zoning plan level, soon to be completed.

The market day will be a physical all-day meeting in Bergen on 12th January, continuing from the information given at the previous market day, autumn-21

The project is working on the contract and procurement strategy for the project in road, tunnel, structures, bridges, automation (SRO) and electricity

“We hope many people from the industry will join us on this day. Our intention is close and good cooperation with the industry and the market,” emphasizes Tjønn Rinde.

Information and registration

Date: 12 January 2023

Time: 08.30–16.00

Location: Hotel Quality Edvard Grieg, Sandslåsen 50, Bergen, Norway

Send registration by 09.12.22 to e39stordos@vegvesen.no

If you have questions that you would like the project to answer in the meeting, feel free to include them in the e-mail. Invitation to the market day has been sent out in KGV/Doffin/TED.

About the E39 Stord-Os project

The project is one of the most extensive road projects in Norwegian history with its 55 km and will connect Western Norway in a new way.

Western Norway and Norway in general plan to increase the competitive situation for people and resources, both national and international. E39 Stord - Os will open up greater synergy, -freedom and an expanded housing and labour market area for the population. This will contribute to increased business growth for Western Norway. A proposal for the zoning plan will be delivered to the Ministry winter/spring 2023.
