

Teknologidagene 2015

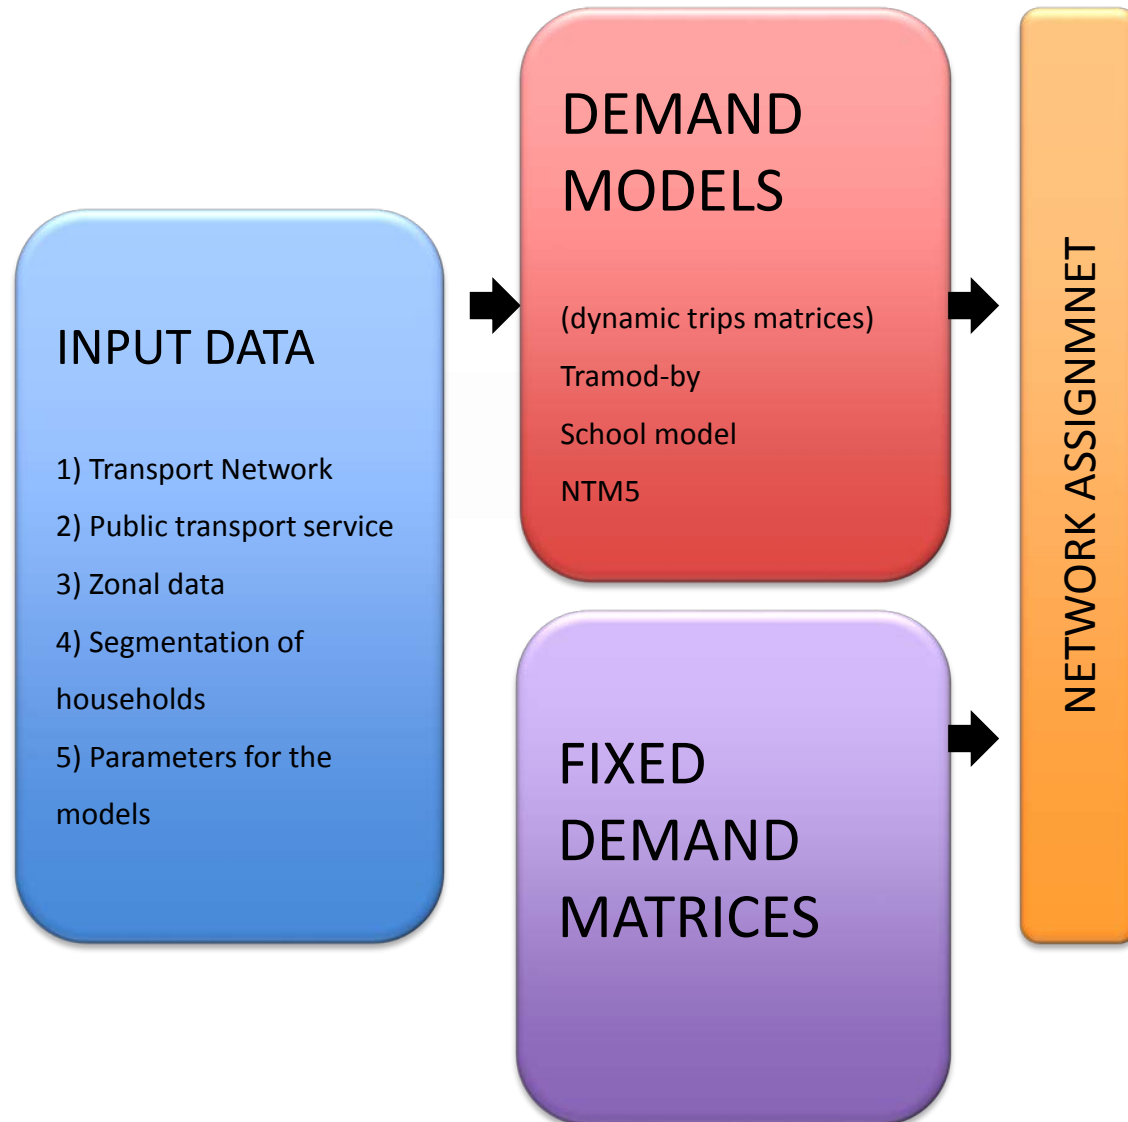

PhD E39

First results

- Tunnels and bridges will imply:
 - Huge time savings
 - Service 24 / 7
 - Weather independent
 - Cheaper*

Impacts of Ferry replacements

Ferry replacement projects

- Land use impacts
 - Case studies Rennfast and Finnfast
 - Case studies in rural areas
 - Employment and turnover for local businesses/industry
 - Pre- model for demographic changes
- Inconvenience with the ferry service
 - Regularity, waiting times / arrival strategy, tourists
- Balancing the destination choice in the model and other aspects of the fixed links

After first year

- Fixed links have impact on Residential patterns
- More people are commuting and employed
- The impacts are smaller or absent for fixed links further from cities (Stavanger)
- More companies, but only small changes in turnover
